

Final Project Presentation Template

Rebecca C. Steorts

Data

- ▶ Summarize overall a picture of your data and your motivating questions

Entity Resolution

Explain briefly what ER is and why it's needed for your data set at hand.

Methods

Explain what methods are suitable for your application and why!

Experiments

Tell us about your experimental set up and evaluation metrics.

Results

Tell us about the most compelling results and how these allowed you to answer the questions of interest

Discussion

Provide a discussion regarding what you learned, what you still need to do
